Best Practices for Slides

- ▶ Use a clean, simple template.
- ▶ Use color effectively.
- ▶ Don't put too much text or math on a slide.
- ▶ Format graphics and tables specifically for your talk.
- ▶ Read the Beamer manual!

This slide is about blocks

This is a block

And this is the content of the box, where you add details.

This is an alertblock

And this is the content of the alertblock, where you add details.

This is an alert! It's just like regular text but more emphatic!

How can I remember what to say?

There is almost nothing on this slide, but there are hidden notes to remind me what to say!

How can I remember what to say?

There is almost nothing on this slide, but there are hidden notes to remind me what to say!

1. Don't forget to mention that my favorite color is blue.
2. Explain Fermat's last theorem
3. Buy toothpaste
